

FINE HOMES

GREEN IS "COOL"

Fashions come and fashions go and mostly pass me by, leaving me unfazed.

I find myself puzzled by the need to re live the past, or maybe I'm justifiably concerned that I'm witnessing such 70's horrors second time round!

But...chuffed to bits am I to see that greenery in the form of interior plants, in our homes, on wallpaper and fabrics is back. Not that it ever left my life to be honest. My home is actually like a forest, but that's excusable as my business is plants...but it always has been a lush and verdant space.

A plant deprived home, or office, is not a place I can envisage. Plants make people happy and they make our surroundings a healthier living, breathing space.

Green is "cool".

As humans we are happier and calmer when around other living things...especially when those living things are thriving.

So, this is where Posh Plants can help.

With a lifetime loving and nurturing plants we have gained knowledge and experience which can ensure you can live in harmony with your plants.

Posh Plants "Interior Plant Service"...

we can deliver beautiful interior plants from small succulents up to 2m tall palms, we will deliver and place them in the perfect position in your home and advise on the best care to keep your new plant looking fresh and healthy. Self watering planters are available and can make keeping plants easy.

Call Sue on 07703 347014 for more info.

Mother's Day is not long now, so make sure she feels appreciated and loved.

From stunning bay trees to spring flowering planters the nursery and online shop has lots to chose from.

Posh Plants now offer "Silver Leaves"...a range of modern jewellery, designed and made by Sue Huckle here in Norfolk.

Created from silver and gold and hallmarked by the Goldsmith's assay office each piece is inspired by plants and nature!
